Parent's Trail Guide to Scoutbook

Welcome to Scoutbook! This tool will help you, your scout, and your unit to keep track of all the amazing adventures and activities your scout does and achieves. This is a brief overview of how Scoutbook works.

You will get an email from your unit inviting you to join <http://Scoutbook.com> where you will log in with your email address and the temporary password from the invite.

Most of what you will do starts when you click "My Dashboard." You can think of this as the Trailhead for your Scoutbook—where all the other paths go, and where to come back to if you get lost.

Giving your scout access to Scoutbook

Only a parent can give access to a scout to Scoutbook. We recommend they get access to Scoutbook as a Boy Scout after they earn their cyber chip, but that is entirely up to you.

- The Scout needs their own email address to access the application. In their profile
- The Parent accesses the Scout's "Edit Profile" screen and clicks the "Invite Scout to Connect" button on the bottom of the page.
- The scout will get an email with instructions on how to log in.
- NOTE—Scoutbook does NOT replace a Scout's Handbook signature

A Note on Advancement Checkmarks in Scoutbook

There are three kinds of colored checks for Advancement:

- **Green** check means the scout has checked a box saying they are ready to be tested - OR something is signed off in a book by a scout, but not recorded yet by Advancement.

Green is the ONLY check color a parent or scout should ever use on their own records.

- **Blue** check means it has been approved and recorded by the unit Leadership.
- **Yellow** check means it has been awarded to the scout
